HIGH SPEED AUTOMATED LASER CUTTING

Our state of the art high speed laser cutting system gives us ability to produce high quality parts with faster processing times & higher quality. We also have increased processing range into rare materials such as brass, copper, & titanium, previously unable to be processed by laser cutting. Our automated load/unload system adds capacity for lights out, & lightly manned production.

Features:

- High Speed Laser Cutting
- Cutting tolerances as low as .001" on request
- Lights out automated operation
- Nitrogen cut edges ready for finishing processes

Materials:
Mild Steel
Aluminum
Stainless
Brass
Copper
Titanium
Ferrous & Non-Ferrous Metals

POWDER COATING

Having our own in-house powder coating system adds to our ability to be competitive. It also helps us maintain control of all processes & reduce lead times.

FABRICATION & ASSEMBLY

Our fabrication department is equipped to handle a wide range of projects & produce parts quickly, & accurately.

VMF VALUE ADDED SERVICES:

Rush Service (24hrs or less)
Inventory Management
Part Stocking
3D Cad Design

- Press brake forming (8 axis CNC)
- Roll forming
- Mig welding
- Tig welding
- Light machining
- Finishing

About Us

Virginia MetalFab is a family owned business started as a division of StallWorks in 2010. We have since grown to become a leader in the custom manufacturing industry. Our success has been based on simple honest values, & a customer central mindset.

Our focus:

Provide a high level of customer service & communication.
Quality product, on-time deliveries, & reasonable pricing.

Our state of the art machinery, & experienced employees enable us to serve our customers in all of these areas.

Our Values:

We conduct business in a fair and honest manner.

We recognize our employees & our customers make us who we are. We value those relationships & look forward to seeing them grow over time & be beneficial to each member.
